- MongoDB - Firebase

PROJECTS

Portfolio

My personal portfolio in witch you can encounter everything about me and how to contact me.

https://sebadio.github.io/Portafolio/

Poke-Wordle

Wordle was a successful game in early 2022, so I thought I would challenge myself to make one but with one of my favorite sagas: Pokemon.
https://sebadio.github.io/PokeWordle/

Secure password Generator

A secure password generator for when you quickly need a safe password.

https://sebadio.github.io/GeneradorPassword/

Gallery made with React

A simple Gallery made with React.

EDUCATION

Jóvenes a Programar
2022 - Actualidad

Jóvenes a Programar is a "Ceibal" program to train and help young people from 18 to 30 years of age from all over the country in the area of information technologies. From the experience in the program at scale and in a short period of time, the young people experience a change in their lives, from the academic, work, and even personal levels.
JaP offers courses in programming, testing, and other technologies with the support of CUTI, BID-Lab, and the main companies in the sector.

Facultad de Diseño y Urbanismo
2021 - 2022
